Introduction

About Us

TAB team was established in 1993 and is the testing & commissioning pioneer company in UAE.

As of today and after seventeen years of sincere and continual effort exerted by the staff, the principle of our team to be an independent third party company certified by BSRIA, is now widely used in most projects in HVAC industry.

We as an independent third party apply to the standards of BSRIA, CIBSE, SMACNA & NEBB.

Our key staff possess more than 20 years of diversified experience in design, execution, TAB and commissioning of major HVAC products.

Our senior staff have more than 15 years of experience in executing many different kinds of projects in UAE with many different systems including district cooling systems, variable air volume systems, variable water flow systems, precision air conditioning systems, dehumidification systems & Refrigeration systems. We also specialize in Noise & Sound level measurement.

We use American manufactured instruments such as TSI and Alnor . With this arrangement, we always capable of meeting the demands to mobilize the required numbers of trained and qualified resources equipped with adequate instruments and tools to comply with project execution schedule.

1. Company General Information

1. **Company Name** : Prime Technologies LLC
2. **Company Address** : P.O. Box: 26736
Dubai - U.A.E.
3. **Nature of Establishment** : Limited Liability Company
4. **Name and title of principal contact(s)** : Mr. Alok Dube, Director
Mr. N. Farook Aliyar, General Manager
Mr. Imran Hussain, Asst. General Manager
5. **Telephone** : 00971 4-3256555
Fax : 00971 4-3234374
E-mail : **prime@primetechnologies.ae**

3. ISO 9001:2008 Certificate

Lloyd's Register
LRQA

CERTIFICATE OF APPROVAL

This is to certify that the Management System of:

**Prime Technologies LLC
Al Quoz Industrial Area 4
Dubai,
United Arab Emirates**

has been approved by Lloyd's Register Quality Assurance
to the following Management System Standards:

ISO 9001:2008

The Management System is applicable to:

**Sales and Marketing, Project Management including Design,
Procurement, Testing, Commissioning and Warranty Support of MEP
Systems for Residential, Commercial, Hospitals, Hotels, Palaces and
Industrial Projects.
Acoustic Study, Design and Manufacture of Acoustic products.**

Approval
Certificate No: MEA1107424

Original Approval: 29 May 2007

Current Certificate: 26 July 2016

Certificate Expiry: 14 September 2018

Issued by: Lloyd's Register Quality Assurance Limited

001

LRQA Ltd – Dubai, Festival Office Tower, Suite 2001, Dubai Festival City, Dubai for and on behalf of
LRQA Ltd, 1 Trinity Park, Bickenhill Lane, Birmingham, B37 7ES, United Kingdom

This approval is carried out in accordance with the LRQA assessment and certification procedures and monitored by LRQA.
The use of the UKAS Accreditation Mark indicates Accreditation in respect of those activities covered by the Accreditation Certificate Number 001
Macro Revision 15

Lloyd's Register Group Limited, its affiliates and subsidiaries, including Lloyd's Register Quality Assurance Limited (LRQA), and their respective officers, employees or agents are, individually and collectively, referred to in this clause as 'Lloyd's Register'. Lloyd's Register assumes no responsibility and shall not be liable to any person for any loss, damage or expense caused by reliance on the information or advice in this document or howsoever provided, unless that person has signed a contract with the relevant Lloyd's Register entity for the provision of this information or advice and in that case any responsibility or liability is exclusively on the terms and conditions set out in that contract.

6. Testing, Adjusting & Balancing Services

INTRODUCTION

Testing and balancing (TAB) is an integral part of the commissioning process. It is therefore recommended that an independent third party be retained to perform testing and balancing services on commissioning projects. Testing, adjusting, and balancing of all HVAC systems in a new building is needed to complete the installation and to make the system perform as the designer intended. Assuming that the system design and installation meets the comfort needs of the building occupants, testing, adjusting, and balancing of the HVAC system fine tunes occupant comfort levels while keeping energy use to the lowest level possible. This is extremely important in this era of rising energy costs. The TAB phase of any building construction or renovation is intended to verify that all HVAC water- and air-flows and pressures meet the design intent and equipment manufacturer's operating requirements. It is rare to find an HVAC system of any size that will perform completely satisfactorily without the benefit of final adjustments. This is why it is considered a "best practice" for the designer to specify that TAB work be part of the overall HVAC system installation.

PRIME TECHNOLOGIES ensure that all works are carried out to CIBSE and ASHRAE Commissioning Codes and BSRIA, SMACNA and NEBB commissioning guidelines.

TAB SERVICES

PRIME TECHNOLOGIES offer the following TAB services to meet our client's requirements

Air Testing & Balancing Of	Hydronic Testing & Balancing OF	Environmental test Of
<ul style="list-style-type: none"> • General supply & extract fans 	<ul style="list-style-type: none"> • Chilled Water Circuits 	<ul style="list-style-type: none"> • Noise
<ul style="list-style-type: none"> • Fan coil units 	<ul style="list-style-type: none"> • Hot Water Circuits 	
<ul style="list-style-type: none"> • VAV systems test 	<ul style="list-style-type: none"> • Flow Devices 	
<ul style="list-style-type: none"> • Smoke fans 	<ul style="list-style-type: none"> • Pumps 	<ul style="list-style-type: none"> • Temperature & Humidity test
<ul style="list-style-type: none"> • Stair Pressurization systems 	<ul style="list-style-type: none"> • PHX 	
	<ul style="list-style-type: none"> • Chillers 	
	<ul style="list-style-type: none"> • Cooling Towers 	

7. List Of Instruments

Instrument Details		
S. No.	Description	Total No. Qty.
Air Flow Instruments		
1	Balometer	45 Nos.
2	Anemometer	35 Nos.
3	Micro Manometer	30 Nos.
Water Flow Instruments		
4	U-Tube Manometer	25 Nos.
5	Hydronic Manometer	10 Nos.
Temperature Instruments		
6	Digital Thermometer	10 Nos.
7	Pshycrometer	5 Nos.
Rotation & Noise Instruments		
8	Tachometer	15 Nos.
9	Noise Level Meter	3 Nos.
Duct Leak Test Instrument		
10	Leakage Testers	01 Nos.

INSTRUMENTS:

A. AIR FLOW INSTRUMENTS:

1. BALOMETER

2. ANEMOMETER

3. MICROMANOMETER

1.	BALOMETER	PH731/PH721	To measure the direct air volume at the grills, diffusers and other air details.
2.	ANEMOMETER	EDRA/LCA	Air Velocity Measurement at Inlets, outlets and terminals.
3.	MICROMANOMETER	DPM	Static pressure and velocity pressure measurement of air in the duct.

B. WATER FLOW INSTRUMENTS:

1. U-TUBE MANOMETER

2. HYDRONIC MANOMETER

1.	U-TUBE MANOMETER	*PK 30 Mercury Filled *PK 30 Fluro- carbon Fluid Filled	To measure the differential pressure across DRVs, Orifices, Heat Exchange Coils
2.	HYDRONIC MANOMETER		

C. TEMPERATURE INSTRUMENTS:

1. DIGITAL THERMOMETER

2. PSYCHROMETER

DIGITAL THERMOMETER	3441	HIOKI	To measure the temperature of water and air.
PSYCHROMETER	DT-2	BRANAN U.K	To measure the temperature of water, dry and wet bulb temperature of air.

D. ROTATION AND NOISE INSTRUMENTS:

1. TACHOMETER

2. NOISE LEVEL METER

1.	TACHOMETER	3403 DT 2236	For measuring rotating speed (r. p. m.)
2.	NOISE LEVEL METER	CEL-328/3	For measuring sound pressure level in db's at different octave band frequencies

E. VIBRATION & DUCT LEAK TEST INSTRUMENTS:

1. VIBRATION FLUKE METER

2. DUCT LEAKAGE TESTER

1.	VIBRATION METER	FLUKE - 805	Vibration is a characteristic of virtually all industrial machines. When vibration increases beyond normal levels, it may indicate only normal wear - or it may be a sign or source of trouble and signal the need for further assessment of the underlying causes, or for immediate maintenance action.
2.	DUCT LEAKAGE TESTER	ALF150	The Duct Leakage Tester is required to carry out a performance test of the installation in the quickest and easiest way to verify that the duct work is up to standard and without leakage

8. Major Projects Executed

PRIME TECHNOLOGIES HAVE BEEN APPOINTED AS TESTING ADJUSTING & BALANCING CONTRACTOR AND WE DID COMMISSIONING WITH AN ENHANCED STANDARD OF COMMISSIONING TO ENSURE THAT ALL THE MEP SERVICES ARE COMMISSIONED AS PER MALL, BUILDING STANDARD & HYGIENIC STANDARDS.

WE HAVE A WIDE KNOWLEDGE IN TAB WITH A VAST EXPERIENCE OF AROUND 22 YEARS. WE HAVE EXECUTED MAJOR PROJECTS IN U.A.E, QATAR, KSA, EGYPT AND INDIA OF VARIOUS SECTORS AS FOLLOWS

- **GOVERNMENT SECTOR & PRESTIGIOUS PROJECTS**
- **MALL & SHOPPING CENTER PROJECTS**
- **HOTELS & RESORT PROJECTS**
- **VILLA PROJECTS**
- **HOSPITAL PROJECTS**
- **EDUCATIONAL CENTRE PROJECTS**
- **DATA CENTER PROJECTS**
- **PALACE PROJECTS**
- **WARE HOUSE PROJECTS**
- **FOOD PROCESSING UNIT PROJECTS**
- **RESIDENTIAL & OFFICE TOWER PROJECTS**

KEY ACHEIVEMENTS:

Our biggest achievements also include approvals as an independent third part by the below mentioned.

9. Refurbishment & Maintenance Division

Activities Of Refurbishment & Maintenance Division

- Providing appropriate solutions for MEP needs in terms of design and products.
- After Sales Services and Maintenance.
- Annual Maintenance Service and Refurbishment of all the Pumps, AHU's, FCU's, Closed Control Units (CCU's), Boilers, Package A/C Units, Water heaters, water Fountain, MRI Chillers, Industrial Fans, VFD, UPS, Busbar, Emergency Lighting System (CBS), Kitchen Equipments
- MEP FITOUT Services
- Interior Works
- Stainless Steel Fabrication & Architectural works
- Civil Work Associated With Refurbishment works
- Energy Audit Reports and recommendation.
